

The Woman of **REHABILITATION CARE COORDINATION**

Doreen Casuto, Founder and CEO

Doreen Casuto never considered starting her own care management business until she was laid off in 1989. This led her to her calling: helping the disabled community. As founder of Rehabilitation Care Coordination, Doreen notes, “I was able to advocate and provide resources and support for individuals to increase their independence. I was inspired knowing that I could help them take back their lives.”

Rehabilitation Care Coordination has helped hundreds of disabled individuals throughout the country find something to do, something to look forward to, and someone to do it for. Reflecting on lessons learned, Doreen adds, “Always remember when one door closes, find the window. Look for opportunities and options. Focus on ability not disability in others. And never compromise your integrity.”
